Since ancient times, the Opening of the Third Eye has been shrouded in mystery and esoteric lore. Yet, far from fading away in our metaphysical memory, it has more relevance today for everyone than it did when it was a practice reserved for a few select adepts at any give time. Now, more souls are ready to open their third eyes, their inner spiritual vision, and wake-up to a new world and a new life. If you're reading this, you're one such soul. If so, it's time to Open Your Third Eye, Wake-Up, See Clearly and Live much more Joyously.

In our brand new series, each teleseminar will be devoted to an important step in your journey to opening your third eye and seeing your life and the world in a way that will transform how you live and how you relate to everyone and everything. As you advance

along your spiritual path, you'll become more and more aware that seeing, not with your two physical eyes of your body, but with the single "third" eye of spirit, plays an increasingly more important part in your enlightenment and freedom. What and how you see your life and the world define your experience of reality. Unfortunately, most people assume that what they see is what they've got. The great news, however, is that when you learn to see everything in your life anew, from the soul's third-eye-view perspective, you will begin to experience the world the way that mystics and enlightened beings have talked about for millennia. Rather than a dreary pain-and-suffering-filled world, we truly live in a joyous, miracle-filled world - if only we learned to see the reality that most of us have forgotten how to see.

Each of the teleseminars in this series will begin with a lecture introducing the topic followed immediately by step-by-step instruction and guidance on the use of various important psychic tools and practices. Once you learn the tools and practices, you'll be given practical guidance on how to apply them in living your day-to-day life to help you further yourself along your path. Not only will the regular practice and application of these tools help you manage the variety of situations and conditions you encounter in everyday life much more effectively, by doing so correctly, you will grow by leaps and bounds in your spiritual development and fulfillment of your soul purpose. Naturally, participating in all the teleseminars will offer you the greatest benefit, but you may attend any of the teleseminars. No prior classes are required before taking any of them.

TS1 - Opening Your Third Eye: *Clairvoyance & Finding Your Answers Within*

Saturday, April 15 Holy Saturday

10 AM - 12 PM

Our teleseminar series will begin with an exploration of the nature of clairvoyance, seeing clearly spiritually, which means learning to truly look within your own beingness for your answers. This is the first step to learning to see the truth much more clearly. Next, as with the format of each of the teleseminars in this new series, you'll learn a set of psychic tools and practices that you can use everyday to help you in the process of opening your third eye and seeing anew. In this first teleseminar of the series, the tools and practices you'll learn will help you in turning inward to your spiritual self for the answers you seek in life - whether to practical everyday questions or to those relating to your deeper spiritual development. Then, you'll learn how to apply these tools and practices to your day-to-day living - at home, at work, in your relationships, in healing yourself and for your creative

expression - as part of your spiritual growth to further the opening of your third eye and your awakening.

TS2 - Opening Your Third Eye: *Letting Go of Judgments & Seeing Your Way Clearly*

Saturday, April 15 Holy Saturday

1 PM - 3 PM

In the second teleseminar in this series, we'll explore the nature of judgments that we all carry consciously and unconsciously within our mind, what those judgments are and how they affect our ability not only to see clearly, but even more in our experience of our life. You'll be surprised to discover how many and what different kinds of judgments might be severely curtailing your ability to experience the joy of life. You'll learn how continuing to hold judgments keep you from opening your third eye and seeing more of the truth. You'll also learn simple but powerful psychic tools to help you to recognize the judgments as well as release your hold on them to open your third eye and see much more of miracles that life has to offer. We'll give you guidance in applying these tools and practices in your daily life so that everyday, you can free yourself of more of the judgments that keep you hostage and asleep.

TS3 - Opening Your Third Eye: *Grounding to the Earth, Seeing Heaven & Healing the World*

Saturday, April 22 Earth Day

10 AM - 12 PM

Our third teleseminar in our Opening Your Third Eye series is scheduled for the morning of Earth Day, so to celebrate Mother Earth, we're addressing the topic of Grounding to the Earth, Seeing Heaven and Healing the World. The first psychic tool that we always teach is that of grounding to the center of the earth, but what is the purpose for doing that and why is it so important in the process of opening your third eye? In this teleseminar, we'll explore the practice of grounding the body to the earth and its relationship to us opening our third eye to see heaven. The true meaning of "creating heaven on earth" isn't about building beautiful buildings or having fun things to do on this planet, although there's nothing wrong with either. We actually create heaven on earth when we can see that Heaven or Spirit permeates everything and everyone here. Opening Your Third Eye has everything to do with being able to see heaven everywhere and in everything. To accomplish that, however, you'll need to learn to ground your body securely to the center of the earth. In this seminar, you'll learn the psychic tools and practices that will help you both ground the body as well as keep your awareness in Spirit so that you can further open

your third eye and grow spiritually. As you learn to see heaven more in everything and everyone, you'll also learn to heal the world - and everyone in it. As with each teleseminar in this series, you'll receive guidance on how you can apply the tools and practices you learn in your day-to-day living in this world to further your spiritual development.

TS4 - Opening Your Third Eye: *Letting Go of Effort & Boosting Your Energy*

Saturday, April 22 Earth Day

1 PM - 3 PM

Learning to let go of physical or intellectual effort - or merely "trying" - is essential to all aspects of your spiritual development. Although spiritual growth isn't without many challenges, putting a lot of effort, like you do in physical endeavors in order to try to accomplish things, works against you. Everything in Spirit is absolutely without effort, for Spirit is undivided and effort is produced by pushing against opposition. So, in this fourth teleseminar to help you open your third eye and see truth more clearly, we'll explore what exactly effort is, how we produce it all of the time and what we can do to start letting it go, especially when we are learning to live our spiritual life. You'll learn the psychic tools and practices that will help you let go of producing effort in your spiritual work as well as to boost your energy. As always in these teleseminars, you'll also learn how to apply these tools in your daily life to help you become more aware of when you are producing effort needlessly and how to drop that effort and move forward more effectively and gracefully.
