"The intuitive mind is a sacred gift and the rational mind is a faithful servant. We have created a society that honors the servant and has forgotten the gift." - Albert Einstein

Without intuition, we cannot know our true soul purpose. And we cannot access our intuition, if we don't first learn to truly let go. So, we decided to offer you two extraordinary all-day seminars to help you let go more fully, access your intuition any time and all of the time, and live more of the miracle every day to fulfill your true purpose.

On Saturday, you'll explore the Art of Letting Go and learn what it means to let go of limitations, fears, upsets and the problems plaguing you that you can't seem to solve. You'll learn that it's not until you let go of what you think is the problem that you can find the real answers to your questions and solutions to life's challenges. It's simple, but not so easy to put into practice. Letting go of anything is an art and as with any kind of art, it requires intuitive know-how and practice to acquire the skill and master it. As you learn to let go more and more in your life, you'll discover much more of the joy, love and freedom that is already within you. During this in-depth seminar, you'll learn, too, many simple, but powerful psychic tools that will help you access the laughter in your heart, love more freely and live much more of the miracle that is your soul life. Learn to let go to access your intuition and discover your true soul purpose.

In Sunday's seminar, you'll learn about what intuition really is and how to access it whenever you like. You'll also discover what has kept you from trusting your intuition and learn to follow through on it to live a more inspired, intuitive and purpose-directed life. You'll be introduced to a variety of psychic tools and life mastery practices that will help you intuitively know what your next steps are, let go of fears and limits, and develop your certainty to take action. As Steve Jobs, one of the greatest innovators of our time said, "Have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary."

We welcome you to join us for these two incomparable all-day experiential seminars to discover and learn for yourself how to live the miracle by letting go and following your intuition.
