Dear SHAPE Community & Graduates of Clairvoyant Programs, AHA! & Our Psychic Tools & Life Mastery Practices Course,

You may have heard me say during one of our recent events that Atlantis is rising. Or you may have seen it for yourself that something big is surfacing not only in the world, but even more so in everyone's consciousness. The global upheaval that you're witnessing in the world currently, the kind of which is unprecedented, is just the tip of a major karmic cycle that has lain dormant below the surface of everyone's consciousness, since the "sinking" of the Atlantean civilization, but nonetheless has been running in the background, beginning to rise up for review, resolution and healing. What looks like chaos reigning on the world stage right now is merely the long-battered-down hatches of denial, ignorance and unconsciousness blowing wide open. Today, humanity faces a golden opportunity to awaken in a big way.

Even amongst those who are more spiritually aware and more metaphysically-oriented, the idea of Atlantis seems to be focused on its "fall" or its physical "sinking" into the ocean. Those who have been interested in the Atlantean civilization have gotten to bits and pieces of its history and culture. Most people think of Atlantis as having been one continent and one civilization. Yet, few people seem to grasp the enormous scope of what went on before and during the various incarnations of Atlantis leading up to its final collapse and the effect it had on later civilizations throughout the planet. Just in the sheer duration of its development - an estimated 75,000 years or more from pre-Lemuria to the second

deluge - it boggles the mind as to what and how much such an on-going culture could have produced.

Today, we marvel at the enormous technological advances our current culture has made even in the past few decades. More and more people are waking up in expanding their consciousness as well and spiritual concepts understandable to a minuscule segment of the population only a century ago are now household terms. Yet, even in terms of our so-called recorded history, we're only talking about 5000 - 8000 years at most in which all of what we experience in the world today has been accomplished. Imagine what we could, as humanity, produce if we were given 15 times that number of years as a continuous civilization? What would our average consciousness be like?

Where you all are along your path of awakening and of spiritual development, it wouldn't be hard to imagine a time not-so-far-away in which at least high school or college history students would be learning to read the Akashic Records and experience for themselves what really happened in history - whether the personal history of an individual or a more global, or even cosmic, history. Imagine what research in any field in any facet of our society would look like if reading the Akashic Records became a regular ability that the majority of citizens learned to develop in school, like reading books.

In the world today, however, there are few who are able to read the Akashic Records and most of them are not known by many. Fewer still are those who are able to teach others to read those records. So, it's time to start setting the records straight! It's time to step-up your clairvoyant reading abilities so that you could look for yourself at, and learn from, history rather than from someone else's limited interpretation of what still others have written about it. Why not get history from the horse's mouth? Well, in this case, that horse is what we've been calling the Akashic Records. It's the massive imprint of the most untainted recording of what really happened, is happening and will happen and it's not based on biased human documentation.

That's what we'll do for our March SHAPE Weekend Intensive in our transitional venue in Petaluma while we continue our search for a more permanent Northern California "home." First, we'll explore what exactly the Akashic Records are, why so few people seem to be able to access it and what it takes to read it. Then, we'll look into various times and places in the history of human evolution, as well as into some of our own past incarnations, to expand our awareness of where we are along our path of awakening and freedom.

It has been said that those who fail to learn from history will surely repeat it. Learning to read directly from the Akashic Records is without doubt the surest way to learn from our history and, instead of having our own "Groundhog Day" experiences, fully free ourselves from holding on to our karmic past. In fact, what you are witnessing happening around the world now is the smorgasbord of karmic cycles that we, as humanity, must learn to rise above, if we are to progress spiritually and claim our cosmic citizenship. Our relationship to the Akasha has already shifted into a completely new dynamic, but we have to be able to have that shift. We need to let go of the old patterns of guilt, blame and seeking redemption and practice instead resurrecting ourselves from the illusions of sin and death. Atlantis *is* rising, but before we can fully benefit from the golden wisdom and advances in consciousness made by the magnificent Lemurian-Atlantean civilization, we must become senior to the unfinished karmic cycles resurfacing after having been buried for millennia beneath the sea of ignorance, fear, desire and the unwillingness to forgive.

Don't let the past bog you down. Free it up instead. Polish-up your third eye, unbuckle your seat-belts and join us for a profound - and pro-fun! - ride down Intergalactic Memory Lane!

With enthusiasm, love and joyful laughter,

Michael
