What do clairvoyants see when they talk about a person's aura? What if you could see it too and get to know who someone really is? Have you ever wanted to see the truth of a situation clearly, so that you can make better choices? What would you do if you could see the spirit of people when they were not in their bodies? If you could see the past-life relationships you've had with your family, friends, and workmates, would that help you in having more fulfilling relationships with them now? You can do any and all of these things and so much more through your clairvoyance.

Clairvoyance, or clear seeing, is a psychic ability. That's because it's innate to you as the soul, but not as a body. We all have this ability within us. In order to use it, however, we have to re-train ourselves to see with the single, limitless eye of spirit, rather than always depending on our limited physical sight. By learning to see as the spirit we truly are, we begin to see beyond what our bodily vision is able to pick up. Besides, what we see through our physical eyes is reconstituted processed data, while what we see with the eye of spirit is direct experience of energy.

By the time we are 5 to 7 years old or so, most of us forget that, as souls, we are able to see beyond this physical world. Some of us, however, keep at least a portion of our clairvoyance and continue to see a much greater reality as we grow up. I am one of those who was fortunate enough to retain some of my natural soul ability to see and discern truth from illusions. Even as a young child, I often intuitively knew many things from what

I saw clairvoyantly, yet I didn't have the vocabulary or life experience to communicate it well to others, until much later in life. Of course, even in our world today, frequently, it can be a challenge to be able to see what few others around us see. Harder still is finding kindred souls with whom we can communicate about the much more expansive world we experience and live in.

Being able to see clairvoyantly is not just for those who seem to have the gift or for those who are interested in metaphysics or psychic phenomena. It is essential for our spiritual development and fulfillment. It is a necessary tool on the path to our ultimate freedom, as it is seeing truth that sets us free. Clairvoyance is our ability to discern truth - or what is - from what merely appears to be to our bodily sense perceptions. When we fully develop and gain mastery of our clairvoyance as souls, we attain what is called cosmic consciousness or the consciousness of the limitless and eternal whole. Rather than remaining isolated entities constantly in search of identity, we realize ourselves as one, unending, joyous totality of beingness.

So, wherever you may be along your path of learning to see with the eye of spirit, we welcome you to join us for a wonder-filled experiential workshop. What you learn in this workshop will help you progress in seeing and discerning your own truth from judgments and other illusions. As you begin to see more clearly, it will help you apply your clairvoyant ability to all aspects of your daily living and creative endeavors. Then, as you continue to fully incorporate your clairvoyant development into every facet of your life, it will ultimately guide you to attaining your full awakening.

When I teach, I draw from my years of intensive training, past-life recall, nightly out-of-body sojourns, over 42 years of teaching and giving clairvoyant counseling, and a lifetime of miracles, including returning from five near-death experiences. We'll explore the more comprehensive nature of clairvoyance, the part it plays in you fulfilling your soul purpose, and what it really means to see spiritually. You'll learn a few simple, but powerful psychic tools to help you get more grounded, center your awareness, direct your energy and develop your clairvoyance. You'll also get to experience that all of this profound spiritual growth can be joyous and filled with laughter.

I'm looking forward to seeing you in Basel!

Peace be with you always. With gratitude, love and laughter,

Michael
