A Joyous Message and Invitation to Our SHAPE Community & Graduates of Clairvoyant Programs, AHA! & Our Psychic Tools & Life Mastery Practices Course!

We're down to the last few weeks of 2016 and what an absolutely miraculous year it has been for all of us. Of course, there have been ups and downs, challenges and celebrations, that accompany all great adventures into profound learning and healing. I'm sure most, if not all, of you have been aware

that this has truly been a year of exponential growth for each of us. Just when you thought you've seen the top of Everest, you're looking at an even higher peak that you've never heard of. Well, that's because we've been beginning to tread where truly only angels, masters, and highly awakened souls have ventured before. A few have left us markers here and there along the way, but the detailed maps to our destination can only be found within each of us, where we are going now. Are you ready to keep going? (Hint: You've long passed that point of no return, so the only choice you have to make is whether you wish to drag your spiritual feet and take the longer 'effort' route or be proactive and go for the faster path of grace - and least resistance.)

If you've participated in any of our SHAPE Trancemediumship Mastery Course Classes, Weekend Seminars, Retreat Intensives, or Clairvoyant Reading Skills Practicums (especially the most recent ones), you undoubtedly have experienced that the whole of the SHAPE Community is stepping up in an unprecedented way. Many of you in your emails to us have mentioned that you're running out of superlatives to describe your experiences, learning, and growth in our classes and events. We've run out of them as well to describe what we've been seeing in the kind of growth that each and every one of you has been demonstrating in so many ways. It's been one super-sized miracle.

Naturally, when you're in the middle of it all most of the time, it's a bit harder to discern exactly how much you've grown - since your classmates are growing just as much. And, when you do get out into the thick of things in the world by yourself, you often run into energies and movement almost diametrically opposed to where you are. If you resist that at all, you tend to get entangled in the invalidation of those energies rather than recognizing that, as challenging as it may be, your experience is a tremendous validation for how far you've come. So, it's important to give yourself a moment's pause to step back in neutrality and validate just how far you've come in your awakening and fulfillment of becoming more of who you truly are.

We are nearing the completion of our 2016 SHAPE Trancemediumship Mastery Course. Our finale for this course and for this year's SHAPE teaching events will be the SHAPE Christmas Celebration Weekend Intensive in Novato, December 17 - 18. The theme for the weekend intensive and celebration is, **Trancemediumship & The Christ Path: A Special Trance-Channeling Intensive and Initiation**. (Please read my separate write-up for that event description and details). Our Year-Long SHAPE course that had begun as a grand, new experiment has now proven itself many times over as an extraordinarily successful launching of everyone into a brand new space, profoundly expanded awareness, and accelerated growth. It has also helped catapult our community into a whole new arena. So, the final SHAPE event of this year will be in part a celebration of what we've learned and accomplished together, but even more so a commencement and an initiation of our individual as well as collective next steps. We'll set the stage for you taking your next steps in **Living The Miracle and Shining Your Light** ever more brilliantly. Along with your next initiation and blessing, you'll get to experience a bit of a sneak peek into our next brand new SHAPE Mastery Course for 2017 - **Discover Your Destiny as a Cosmic Citizen: Integrating Your Inner Life & The Outer World Through Your Mediumship**.

Yes, we'll set this new SHAPE Mastery Course into orbit on February 2, 2017. Everyone in the SHAPE Community or those who are SHAPE-qualified are welcome to join us on this next great soul

adventure along the path of fully awakening and living the miracle. In this phase of your mastery, you will learn to continue to fulfill your purpose as an individual, while you begin to **Discover Your Destiny as a Cosmic Citizen**. Shining your inner light of spirit ever more brightly in this world requires you to fully integrate the life that you are destined to live with the life that you are living in this world. That process will, in turn, require you to further cultivate your mediumship space, awareness, and ability, both in and out of the trance state, to gain your self-mastery.

Because of the amazing steps that we've all taken as a community of seers, healers, mentors, teachers, and leaders through the profound and remarkable exploration of our trancemediumship over this past year, we're now able to continue the trancemediumship mastery work in the next phase of teaching our SHAPE Mastery Course - for both those of you who participated fully in the previous course and for those who did not. Several years ago, we succeeded with our experiment of initially bringing all of you into one community for advanced students to explore, discover, learn, and practice together, even though you came from sometimes vastly different schools of clairvoyant training, as well as from our own foundation training course that wasn't focused entirely on clairvoyant readings. The strength of each of your commitment to continue growing, willingness to communicate and cooperate with one another, and the enormous amount of work you each did to get through to the other side of most judgment/competition/invalidation pictures helped create a real sanctuary for learning for all of us. Just being in the energy of a significant group of those who have enough certainty in their clairvoyant reading abilities, everyone took giant steps in developing their own abilities. We've now created that same threshold of energy and awareness in trancemediumship that even those who haven't had the fundamental course in gaining mastery in their trancemediumship space, energy, and ability, would be able to participate in the upcoming classes in which trancemediumship will be an integral part of the learning process, just as clairvoyance has been all along, whether or not all of you had established your certainty in that intrinsic soul ability. So, as we continue along the Path of Mastery in the SHAPE Community through our next major course offering, your continued clairvoyant and trancemediumship development and mastery along with kundalini energy work will be integral to our teaching of all the upcoming SHAPE Classes. Congratulations, we're embarking upon a new frontier of spiritual exploration and growth. Let's shine our light and live more of the miracle!

May the Eternal Flame of God's Love glow ever more brightly in your heart and the light of that truth light your every step. With gratitude, love, and joyous laughter,

Michael
