**SHAPE Clairvoyant Reading Skills Practicum**

Dear SHAPE Community & Graduates of Clairvoyant Programs, AHA! & Our Psychic Tools and Life Mastery Practices Course,

Bravo! We completed the first year of our on-going **SHAPE Clairvoyant Reading Skills Practicum, Living The Miracle, One Reading at a Time**: 28 two-and-a-half hour advanced reading and healing training sessions so far! Some of you have even participated in every single session. That's another 70+ hours of reading and healing under your aura-belt. Many of you have joined us in some of the incredible experience of discovery, awakening, healing, growth and, above all, living the miracle, one reading at a time.

As you are well aware now, living clairvoyantly is an essential part of living the miracle every day. It's even hard to imagine that anyone can live non-clairvoyantly. Each of you know by direct experience that the life you are living more clairvoyantly now is quite different than that which you lived much less clairvoyantly. In fact, you'd have to pause to remember what that was like now. In the present, you experience more of how you always have been rather than what you used to think you were when you were less in the present. So, the more in the present you live, the more you feel like you always have been where you are! Then, you'd actually have to make yourself remember when you didn't experience life the way you are experiencing it now.

Sometimes, it's good to do that - you'll appreciate much more how far you've come. When you're more in the present, you're appreciating eternity so much that none of that matters. Spiritual growth is "measured" by how close you are to eternity. The more you are beholden to the past and the future, the more you have to grow. As you progress from being more in the past and the

future to being less in them, you grow spiritually more aware and mature. Once you are in the present eternal, you've arrived. Living more fully clairvoyantly is a major part of that process: you're constantly practicing and training yourself to keep your sight on the eternal, on Spirit, as you walk along your prescribed path and in everything you do. As you do that, step-by-step, day-by-day, you begin to live the miracle.

Each time you read someone, you are practicing to keep your inner sight on spirit, to see that person as the light that they are or as beingness. You're training yourself to break the millennia-old programming that you, the readee and everyone else are bodies. With each reading, you're reminding yourself through direct experience, that "person" is spirit, is way beyond a mere body of any kind, immortal, limitless, eternal, aware. Every time you see a picture "light up" within your mind through matching it with a similar one in the readee's mind and you "blow it", you take another step towards seeing that person as the Christ, which means being able to see yourself as the Christ, the whole of life, the cosmic. Remember, as you develop your mastery of the sixth chakra, you are working the underlying dichotomy of being an individual or being the whole.

I have a sneaking suspicion that 2017 and 2018 will be an opportune period to advance our clairvoyant awareness and living. Perhaps a little birdie told me. (It could have been a rather big one, but it wasn't the blue one! Hahaha...) It will be a great time to unload many kinds of invalidation pictures that have long kept human beings' ability to see the truth dimmed down. (Hint: many of those pictures are actually in the fifth chakra rather than the sixth, however.) So, we're setting the stage for this year's SHAPE Reading Skills Practicum Sessions to support that process. I hope you'll get to join us as many times as you'd like in these remarkable, rather miraculous, reading and healing sessions to hone your clairvoyant reading and healing skills, communication and teaching skills, and overall leadership qualities. We'll have

a lot of fun while we're at it!

See you soon. With love and laughter, Michael
