

A New Message from Michael J Tamura about his newly created Comprehensive Foundation Course of Spiritual Study and Practices:

Psychic Tools and Life Mastery Practices for Living Your Soul Purpose

Dear Friends and Awakening Souls,

I'm delighted to announce that this Saturday, we'll launch the first 2 of 18 live Tele-Classes for ***Spiritual Practices to Begin Mastering Psychic Energy and Your Mind to Live Your Soul Purpose***. This is our topic of exploration, discovery, and practice for Level 2 of our full foundation course, **Psychic Tools and Life Mastery Practices for Living Your Soul Purpose**. First, I wanted to congratulate all of you who completed the 12-TeleClass Level 1 last month and welcome you back to Level 2. I thoroughly enjoyed the privilege of guiding you through many challenges. In Level 2, you get to start sinking your psychic teeth into the some of the basic building blocks of what makes things in this world the way they are and develop much more mastery of your path and your life. I know that everyone who studied and practiced the 12 classes took and continue to take major strides in their ability to use much more of their psychic (soul) abilities in their day-to-day lives as they move forward in their true pilgrimage to fulfill their soul purpose. After all, what are we all here for? And, now is the most opportune time for progressing further, faster than it has been viable for millennia. In the coming century, all of humanity will need to make the shift to living a soul-centered intuitive life from having lived primarily as a body-based intellectual race for thousands of years. To be in the forefront to make that shift now and make the way easier for others to follow suit is one of the fastest ways to fulfill your overall soul purpose. Whether you've recognize it already or not, you are here to share yourself - so, let your light shine ever more brightly!

Many people wonder just how sitting around with your eyes closed for a few hours can bring about so much positive change, learning, healing, and growth. Well, you're starting to have some of the answers. These are some of the secrets that were known only to a small smattering of mystics, saints, yogis, and initiates throughout the ages. We're just simplifying and updating them for this time so that many more people can begin to fulfill their soul purpose consciously and with a lot less suffering.

I also wanted to extend our warm welcome to all of the new enthusiastic students enrolling for the first time in this course starting this Saturday. I know many of you will also pick up the Level 1 classes along the way sometime as you decide to fully build your own spiritual practice and psychic development foundation. They are available now as self-study audio downloads. However, we've designed the first three levels of these classes to be of benefit to those who would like to learn and get started on their magnificent journey

to their true soul destination at whatever pace they would like. So, whether you go through one class at a time or take the whole series, until you get to the more intermediate levels, it'll be just fine.

In the Level 2 classes, we'll begin with an exploration of what the mind is to you, the soul, and how psychic energy works in relationship to it. We'll jump right in to introduce how to better manage all that happens in your mind - and your life - that, at first, seem to do so without your choice or control. I'll guide you in developing your awareness and understanding of the images that contain the thoughts that you think and the feelings that you feel in your body and mind. Then, you'll learn to manage them so that you can gain more mastery over the emotional and mental reactions that may have heretofore broad-sided you. Mastery involves your choice to be a victim to those reactions or to respond as a creative soul. We'll further explore the nature of what your space is and how to build it into the true sanctuary for the soul that it is meant to be.

This series of classes and seminars will also gradually build up to learning to create as a limitless soul as well as what life will mean to you as you learn to live much more clairvoyantly. We're so looking forward to seeing you this Saturday! *

May the light of truth guide your every step and love guide your every action always.
With gratitude, love, and laughter,

Michael

*For those of you planning to sign up for the first class or the whole series, please do so as soon as possible so that we won't have a "traffic jam" at our office at the last minute. However, our office will be open Saturday morning as well to accommodate those who still need to register and receive their access numbers.
