🐬 Special Dolphin Experience Cruise/Swim 🐬

🎉 Birthday Celebration 🎉

Aloha Friends and Awakening Souls!

We're heading to our favorite place in the world to retreat, renew, and revise - The Big Island of Hawaii! Create your own mini-retreat on the island and join us for our Seminar Weekend July 14 - 15 and add-on our special Dolphin Cruise/Swim on Monday, July 16! It'll be a wonderful three days of learning, healing, miracles, and celebration. Day 1 of our 3-day mini-retreat will be on my 65th birthday. (The day before is our 27th wedding anniversary as well.) So, let the celebrations begin! The Dolphin Cruise/Swim on Monday morning is our traditional way we share our celebration of my birthday with everyone. Of course, we'll go out to sea aboard *Uhane Nui O Nai'a* (Great Spirit of the Dolphin) captained by our good friends, China Mike and Melainah Yee, owners of Sunlight on Water, and who the Nai'a (dolphins) love. If you've never

been with us for this experience, it's one you won't forget and if you have joined us before, well, then, pack your mask, fins, and snorkel already!

On Saturday, we'll start off the exploration of your Power to Intuit, Imagine, Create & Accomplish with our seminar, *Joyful in the Eye of the Hurricane*: **Renewing Your Self, Space & Sanctity in**

Challenging Times. When you're stepping up your creative power as a soul, life can sometimes get intense. For one thing, so much starts to happen in your life, because your creativity is kicking up a few notches inside. You may have your hands full doing what you need to do, while everyone else seems to need you as well! As you're advancing on your spiritual path, your access to that limitless inner power increases, and it tends to intensify everything that happens. It might feel like it's all too much to handle. And, just when you thought you can't handle one more thing on your already overflowing platter, yup, something else lands on your lap.

Is it possible to be joyful even amidst stormy weather? I feel I'm a living testament to not only being able to enjoy and celebrate life - even through the most challenging times - but, that I wouldn't have it any other way! Why would I? I don't like suffering and I know beyond a shadow of a doubt that happiness is a choice. It doesn't just drop down from the sky and hit you over your noggin. You have to choose it first, even when you're having a tough time. Having died five times and having to work hard each time to get back up to speed probably would count for a few of those times. Did I ever feel like just throwing in the towel? Sure, a couple of times. Yet, I do not like not being happy. So, I chose happiness over suffering. It doesn't take me long to make that essential decision now. What makes it possible, however, for me to be full of joy, even in the midst of hardships, is that I have some powerful psychic tools and spiritual practices I've learned that allows me to renew that sacred space to be who I truly am, no matter what the situation. I'd love it if you learned them too. That's my ulterior motive for teaching this seminar on my birthday.

For Sunday, we have *Miracles On Tap*: **Harnessing Your Creative Power to Realize All Your**

Dreams. Extraordinary times require extraordinary...miracles! Miracles are not the stuff of wishful thinking. They are offered to us all of the time, everywhere, but we have to have the certainty in Spirit to realize them. We're trained from an early age to have our certainty in material success. *If we make enough money, we can buy what we need. If we go to college we can learn how to succeed in the world. If we work hard enough, we can realize our dreams.* All that seems to work for some people. Yet, there are many people in the world who've made plenty of money or went to the best colleges or worked themselves day and night, who aren't happy. Of course, there are a lot more people who are working so hard just to make ends meet that they feel they can't even begin to realize their dreams. So, what gives?

Exactly! What actually gives us everything in life? It's certainly not someone in the world, no matter how much we might love that person. If that were true, the moment that person dies, we would be out of luck. It's not our body either, is it? As souls we've been seeking the answer to that question for lifetimes. It's been a process of elimination to determine that nothing in this world gives us our life.

We do know, however, that miracles show up in our lives. They are experiences that are quite unexpected, yet they seem to give us the exact answers and solutions we were needing. Every miracle offers us some kind of profound healing as well. Some of us seem to experience a lot of miracles, whereas others of us feel that miracles are a once-in-a-lifetime event at best. I, for one, have experienced miracles consistently throughout my life so far. I can't order up exactly what I want to happen and when, but I know I can count on miracles to serve up the best-case scenario every time. I've had miracles when I had no other way for something to work out and I had miracles that just appeared to make my day. Miracles have saved my life more than a few times and miracles have given me a welcome boost, when I didn't know I needed it.

Can we really have miracles on tap? I know we can. We just have to learn to harness the creative power within us in spirit to realize all that we may truly dream of. It begins with our use of imagination and intuition - after all, everything we realize into our lives and into this world begins in our imagination, doesn't it? In our Sunday Seminar, you'll learn simple, but incredibly powerful psychic tools you can use to help you manifest your dreams into reality even when traditional means seem to be out of the question. I've done this to manifest in my life everything from mundane things, like stereo equipment or cars, to fulfilling major aspects of my purpose for being here. If nothing else, this seminar will help you clean out your dream closet and sort out which you'd truly like to realize and which you'd rather toss in the dumpster. You'll be inspired.

I hope you can join us in Kona on the beautiful Big Island of Hawaii this July 14 - 16 and go on a great adventure both inward into the limitlessness of Spirit and outward into the open sea. Let's celebrate living the miracle together! *Ho'olu komo la kaua.*

May the light of awareness shine ever more brightly upon your every step and limitless love be your guide always. With gratitude, love, and laughter, *Michael*

PS - Raphaele and I have been offering to awakening souls what we affectionately call these "Do-It-Yourself" Retreats for more than a couple of decades now, so that you can each create the kind of retreat that you'd like to have designed around the 2 to 3 days you join us in our sanctuary of learning. A few people have come a day or two before and stay a day or so afterwards just to have a mini-get-a-way while they give themselves the opportunity for profound learning, healing and growth. Many, however, choose to make this a full retreat for themselves by giving themselves a few days before our workshops and events and stay for enough time afterwards to process while relaxing and enjoying some time off in a wonderful place.
