Maintaining Your Body

As a Temple for Your Soul

Dear SHAPE Community & Graduates of Clairvoyant Programs, AHA! & Our Psychic Tools & Life Mastery Practices Course,

What a year it's been already! And, we're reaching our cruising altitude. Of course, we may keep going ever-higher, in which case, we'll jettison ourselves out of the earth's atmosphere and into outer space! Yay! Hahahaha..... Far-Out, Man! On the other hand, many of you may have already experienced being far-out quite a number of times in your life and are diligently working to find your way back into orbit, here, in your body, on earth. What a novel idea for waking up, finishing out your karma, fulfilling your dharma, and getting on with eternal life! Hahaha....

Since your initiation of transfiguration in the March Intensive, I'm sure that you've noticed areas of your consciousness opening up that you may not have been aware of before. Space, the final frontier.....But wait! There's even more space. Hmmmm....yep, that tends to happen when you're waking up to limitlessness and eternal life. Yet, with new space and new awareness, come opportunities for new expressions of your creativity. If you don't utilize your newfound space and awareness and energy for your purposes, then, most likely something or someone will. Ah, but isn't that how you ended up with taking on trying to solve so many others' problems or working on manifesting others' mock-ups for them for so long? Hahahaha.....yes, and you're done with that, right?

Your Psychic Metamorphosis is about your ever-changing form of creative expression, isn't it? And form follows the kind of space you create and have for yourself. If you neglect yourself, you'll end up looking and acting like a slob. If you lovingly take care of who you truly are, then, you'll end up acting and looking beautifully bright. It's a bit like making Jell-O, isn't it? Liquid Jell-O is just....Jell-O that's in liquid form. What kind of mold that you pour that liquid into determines what it's going to look like when it's set. (What color Jell-O are you today?)

Your body, whether it's on the physical level that most people call the "human body" or on the astral level that you call your "astral body", your body is the form in and through which you express yourself as spirit. You express yourself creatively in and through your astral body on the astral and in and through your etheric body in the etheric of this world. One of the big shifts that comes about through the initiation of transfiguration is that of shifting which body - or space of consciousness - you are primarily living in. Since most of you had already gone through, as souls, the initiation of transfiguration in a previous lifetime, this initiation during the March weekend intensive was to help you complete it more, so that you can more fully establish your center of being in the cosmic, while still living on earth. You've started working on this, when you started your practice of daily bringing your awareness to your sixth chakra, reading many people, and consistently looking at everything in life as energy. Some of you are well on your way to establishing your life in that level of consciousness, whereas others of you are working at "spending" more "time" in that space by setting up more of your reading practice (regardless of whether you do so freely or as a part of your professional practice). Notice how often you still look at "giving a reading" as a separate activity in your day from, say, answering emails, washing dishes, or posting on Facebook. In that case, you are having to switch your center of awareness to the higher band that you need to "be clairvoyant" in the sixth

chakra from whatever lower band of consciousness and chakra that you spend the better part of your day in, when you're doing other things.

Living your life from the clairvoyant consciousness is the pathway to cosmic consciousness. When you are established in that consciousness space in your sixth chakra, then, the difference between when you are driving a car or giving a reading is not in which center of your consciousness you are living in, but whether you are in an expanded "trance" state or in your daily "normal" state. The trance state of expanded consciousness is what you are in, when you are giving a full, in-trance reading clairvoyantly. The "normal" everyday life state in the clairvoyant consciousness is what you attain as you practice being the "reading control" or "teaching control" and looking at everything clairvoyantly as you go about your day. In that state, you are still being clairvoyant, established in the sixth chakra consciousness, while you are doing everyday tasks required for living in this world. Of course, how and what you see from those two different states are quite different, but nonetheless, still clairvoyant and from the sixth chakra. When you are established in your sixth chakra consciousness, it means you don't lose your awareness of life and spirit and beingness, just because you have to deal with taxes, bill paying, or other worldly situation.

In our upcoming June SHAPE Retreat, we'll explore two main areas of Your Psychic Metamorphosis. First, you'll look more deeply at what all makes up your body of karma and the various aspects of deprogramming or deconstructing that form. Then, you'll tap into your inner spirit creativity to build more of a true sanctuary for who you are as spirit. In this way, you'll be taking another huge step toward transmuting your body of karma into a body of light and wisdom. As you make a new space for the creative expression for who you are as spirit, you transform your body and the way you live.

We'll address your current havingness and ownership of who you are in this world in our Pre-Retreat TeleSeminar to set-up a strong foundation for what you'll be learning and working on in the retreat intensive. Then, we'll follow-up the retreat with our Post-Retreat TeleSeminar to help you continue your maintenance of your new body as a temple for you as the soul. Make sure to polish-up your havingness for miracles!

Looking forward to seeing you all there! May the light of illumination awaken you further.

With gratitude, love, and celebration of life,

Michael
