LIVE THE MIRACLE and
BE THE LIGHT OF THE WORLD!

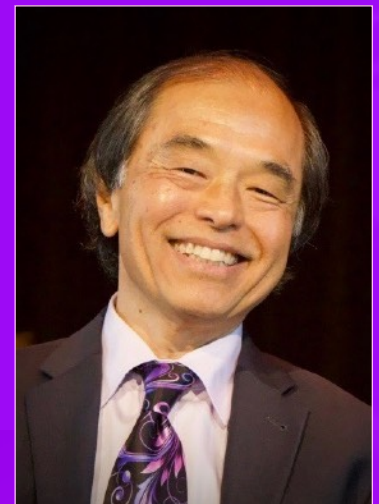

***Dear SHAPE Community & Graduates of Clairvoyant Programs, AHA! &
Our Psychic Tools & Life Mastery Practices Course,***

A Most Joy-Filled New Year to each and every one of you!

This year, 2019, will be a year of profound transformation for everyone, both personally and globally. While some of us will dig our heels in and resent that process, others of us will be cheering and surfing the big waves of change - and we'll welcome them all. How will *you* respond?

Before you answer that question, let's consider the meaning of transformation. It's often defined as a thorough or dramatic change in the form, appearance, or character of someone or something.

Although I do see the whole world undergoing a thorough change, its transformation would be the direct result of the people, who populate this planet, changing in a

big way themselves. And, the essential nature of that massive change would be the expansion and elevation of one's consciousness.

If you've been practicing seeing life and your relationships in radically new ways and enthusiastic about learning, growing, and healing, you will likely experience even more support from Spirit throughout this coming year. Having certainty in living the miracle of Spirit will become even more important for you. This year, you'll need to not just look at the future, but to live the future now, as you see it. If it is your destiny to read, heal, and teach, don't keep that in your future, but start living it now, in a way that you can. Remember, in eternity, there is no past or future - only now. If you begin to live the future you know to be your destiny, now, you will arrive in due course. When the three disciples Peter, James, and John witnessed Jesus' transfiguration on the mountain and him speaking with Moses and Elijah, Jesus was beginning to live his destiny of resurrection. The disciples saw Jesus living in his body of light and wisdom for a brief time. Transformation only happens when you live your destiny here and now.

Transfiguration, transformation, and transmutation can be used as synonyms. Yet, of all the words meaning some type of dramatic or complete change, metamorphosis comes the closest to what we are all psychically experiencing now and will continue to for some time to come. Metamorphosis, for many of us, immediately conjures up the extraordinary process a caterpillar undergoes within its chrysalis as it transforms itself into the almost mystical beauty of its butterfly-self. You are undergoing a psychic metamorphosis as a soul that has incarnated into a body of karma and are actively transmuting it into the radiant body of light and wisdom. Shedding the heaviness of ignorance, you are waking yourself up from the dream of death, lack, and being limited as a body.

To help guide you in this amazing psychic metamorphosis this year, we're offering our 2019 SHAPE Clairvoyant and Trancemediumship Mastery Course, **Psychic Metamorphosis: Transmuting Your Body of Karma** into A Body of Light and Wisdom. We'll begin this comprehensive course with an in-depth exploration of your soul metamorphic process through the five initiations from that of birth through the initiation of resurrection. Then, we'll launch into a review of your major choice point, when you elected to follow your spiritual path and how that has shaped your relationship to your body of karma and your trancemediumship. We'll look at the consequences of your initiation of baptism that you have undergone and what that all means to you now as a soul learning to gain more mastery of your psychic life and spiritual path.

This SHAPE Mastery Course will continue with in-depth explorations of deprogramming karmic entanglements, the mechanics of the pathways of your communication from higher self to your reasoning and feeling selves and vice-versa, the anatomy of karma, the restoration of the analyzer, the genetic entity, the relationship between your dharma and karma, how the kundalini teaches you forgiveness, and a mega-lot more. You'll get to work on healing your

genetic lineage as well as the relationships between your three soul-selves. You'll do chakra work in relationship to healing your endocrine system and you'll be able to deprogram the cells of your body from various energies you've been affected by, during certain phases in your life. During this course, you'll experience more of your own transfiguration process from the denser caterpillar to the radiant and light butterfly you are destined to be.

We welcome you to join us for this next, big adventure for the ever-advancing soul. Remember Jesus' invitation: "Keep seeking until you find; when you find, you will be disturbed, and when you are disturbed, you will be amazed and you will have mastery over all." If you find yourself disturbed about anything, it's good news: You've found something you've been looking for.

Rejoice! Celebrate your findings that initially made you disturbed. You'll be amazed at what you've discovered. We'll keep seeking, finding, being disturbed, and being amazed as we move along in this caravan of kindred, loving, joyous souls, until we reach the destination.

"Come, come, whoever you are. Wanderer, worshiper, lover of leaving. It doesn't matter. Ours is not a caravan of despair. Come, even if you have broken your vows a thousand times. Come, yet again, come, come." - Rumi

May God grant you the courage to seek the truth of your own being. May the Love of God give you the wings to soar. May the Peace of God keep you as you shine your magnificent healing light in this turbulent world.

With Joyous Celebration, Overflowing Gratitude, and Never-Ending Love,

Michael
