Dear **SHAPE Community**, Graduates of Clairvoyant Programs,
AHA! and Our Psychic Tools & Life Mastery Practices Course,

To each and every one of you, a Joy-Filled and Miraculous New Year! I hope celebrating Christmas and the HolyDays helped you prepare to set a brand new energy for your upcoming year, one that inspires you to be your joyous true self. 2021 is the year to have—and live—

The Joy of Being Your True Self

by Keeping Your Sight on God, Establishing Your Space, and Transforming The World.

As St. Catherine of Siena, the fourteenth century mystic, ascetic, activist, and author said:

“Be who you were created to be, and you will set the world on fire.”

How can you tell, if you are being who you were created to be? The touchstones by which you can assess how much you are being your true self are: compassion, communication, cooperation, and creation. The truer you are to yourself, the more compassionate you would be with everyone and in everything you do. You would be more open to communicate regardless of differences. The more you are yourself, the more willing you would be to cooperate with others. And, being who you were created to be, what you create and how you create would be of benefit to yourself, other individuals, and the whole community. How much of each of these touchstones do you have and express in the world everyday? Are you ready to take your next step with each of them, as you experience the joy of being your true self in this world?

As it is in any learning experience, havingness is a must. In this new SHAPE Mastery Course, we will each continue to raise our havingness every step of the way in being more our own true self. We'll look at how much joy we can have, before we cry “uncle!”—and what we can do to get past our havingness limits. We'll work on many aspects of our havingness during this process of being more of our true self.

The practice of keeping your sight on God is another priority, if you are to experience the joy of being your true self in this world. After all, if your sight isn't on the Spirit of God, it'll fall upon the ego and you would be caught in the dichotomy of either-or rather than being able to have the Grace and all-inclusiveness of Spirit. As you progress in keeping your sight on God, you'll need to give yourself more space to be and live as spirit in this world. We'll have to explore what that

“Embrace the glorious mess that you are.” -

will entail, much more in depth. Establishing more space for yourself to be spirit in this world will require you to look at your relationships and how you relate to everyone and everything. Are you relating in cooperation or in competition? In the spirit of cooperation, all that you create will benefit the whole of creation.

One of the most important tools to help you be and express your true self is, of course, your body. The whole purpose of your body is for communication. And, remember, communication is your creative self-expression. Just as when your smart phone is working well it helps you communicate and creatively express yourself better in this world, when your body is in good

health, it can help you do infinitely more of the same. So, throughout this upcoming mastery course, we'll concurrently explore the deeper energetic nature, levels, anatomy, physiology, and psychology of your mind/body and how to

maintain, repair, and upgrade it to help you fulfill your soul purpose. You've been learning some of this through your out-of-body "night classes" already, so we'll bring it more into the body-level consciousness.

The 13th Century Persian poet and Sufi Master, Rumi, wrote: "When you do things from your soul, you feel a river moving in you, a joy." In this 2021 SHAPE Clairvoyance and Trancemediumship Mastery Course, you'll learn and practice doing things from your soul, as spirit—with certainty and a lot less effort—and experience more of **The Joy of Being Your True Self!**

To get a little taste of the actual course content, I welcome you to take a look at the titles for all 33 of our 2021 SHAPE Mastery Course teleclasses, 2 SHAPE Retreats (plus the 4 pre-& post-retreat teleseminars), and 2 Weekend Intensives listed below for a sneak-peak at what your new course for this year offers.

2021 looks to be a year of sweeping changes: Out-with-the-old and In-with-the-new. More than ever, you'll be glad to shine your light in the world and live the miracle.

May the Light of Awareness illuminate your path and God's Grace give you the wings with which to soar!

With gratitude, love, and a joyous celebration of Spirit,

Michael
