Dear Friends and Awakening Souls,

First and foremost, Happy New Year... well, almost (depending on when you're reading this). And it better be—A Happy New Year, that is!

What a year 2021 was! While it may have been an intensely challenging year in the world, it was also an extraordinary year for taking enormous steps in our spiritual growth and self-mastery. The great divide of people polarizing to one end of the dichotomy or the other continues to intensify in the world. Many are in constant doubt: Who to trust? What's the truth? Some are questioning what's real anymore.

Mystics and enlightened masters have long declared that the world is but an illusion or a dream, but when people consider that possibility, many dismiss it immediately or become discouraged if they take it seriously. After all, if the world is only an illusion, it's not real, right? If it's not real, most people would then ask, what's the use of living in it? But that's where they miss the boat. If the world is but an illusion or what merely appears to be in our collective mind, it's actually great news! First, we don't have to take it so seriously. Second, what are illusions good for?

I often refer to this world as a big and complex video game. A video game is definitely an illusion and not real. A movie, even one based on a true story, is still nothing more than a story or an illusion. Yet, the world is full of illusory experiences. You pay a lot of your hard-earned money to experience a whole variety of illusions in this world, don't you? Do you watch TV shows and movies and YouTube Video Blogs? Listen to podcasts? You might occasionally go to amusement parks, museums, sporting events, or concerts. Many of us daily seek various types of illusions to entertain us as well as to educate ourselves. And that's what this illusion we call the world is for—entertainment and education. Kids learn a lot of things by playing certain kinds of video games while entertaining themselves, don't they? In the same way, as souls, we incarnate in this world to play this amazing video game in order to learn what truth is and what is really real.

You must know by now that you learn more quickly if you're having a lot of fun. You might have figured out that even tough subjects are easier to learn if it's entertaining. Also, you might have discovered that you learn better when the learning process is interactive and you are engaged with all of your faculties rather than just with your intellect. When you consider the best tools, practices, and methods for learning, you might see just how incredible this world is as a school for wayward souls, souls who have lost their way temporarily because of partial amnesia. The world provides everything you need to remember who you are, the purpose for which you are here, and how to get yourself back to your true home. Hands down, this world is the greatest educational video game there is!

You need to enjoy playing this video game to fulfill your purpose for being here. To help you start this New Year on the right footing for a truly Happy one, we welcome you to join us for this special

weekend of four teleclasses and we're adding on our popular bonus post-classes Zoom Q&A, Talk-Story & Social at the end of the weekend for anyone taking part in any of the four teleclasses. In each of these powerful classes, you'll learn a different aspect of healing your energy and setting the energy and paving your own pathway for a joyful and productive 2022. TSW22-1 TC1-Is It Fate or Free Will?

See Your Future to Heal Your Future Now

We'll start off this class exploring the age-old question of whether our life here on earth is one that is fated or one that is based on each of our own free will. Then, we'll address what your future actually is and what it means to look at and see your future. Finally, is it possible for you to heal your future ahead of time and, if so, can you learn how to do that in the present? Remember, if the world is an illusion, so are time and space that define the world. One great news if the world is an illusion: you're never stuck with the world, or your life in it, as it seems to be—you can always heal it!

TSW21J TC3-Teamwork to Take Big Steps in 2022

How to Work with Your Spirit Guides to Fulfill Your Soul Purpose

You can't accomplish anything of any greatness as a lone wolf in isolation. No one can. In this illusory world, it's definitely an illusion that the one super-star won the Super Bowl or the Oscar or the Nobel Prize by him or herself. Everyone who has ever accomplished something did so as part of a much larger team. Nobel laureates, for example, have plenty of assistants, students, interns, and employees, along with family and friends and colleagues supporting them in their life and their work. The same goes for any athlete, artist, or business entrepreneur. Even the greatest of writers who prided themselves in strictly writing alone in a cabin in the woods—not only do they need editors, publishers, and avid readers to make their writing come alive, they have a host of spirit guides guiding and assisting them to write and share who they are with the world. Pretty much everything we do involves some kind of teamwork. That is because we are Spirit and Spirit is undivided, limitless, eternal, and one. We each are the same one Spirit creatively expressing our self in unique and diverse ways. When we cooperate with one another to fulfill a common purpose, we become like the separate and individual pieces of a jigsaw puzzle coming together to form a much bigger masterpiece of art. With even one piece missing, that masterpiece cannot come fully into being.

In this class, you'll learn what teamwork is and how to be part of a team so that you can take big steps in your growth and fulfillment in this new year. You'll also learn that the most important teamwork begins with your work with your spirit guides on your path to fulfill your soul purpose. You'll then learn how to work with your spirit guides as part of a team.

TSW22-1 TC4-From Wishful Thinking to Creative Manifestation

Getting Yourself to the Present to Create Your Future

We all wish for something from time to time. Yet wishful thinking produces nothing except more wishful thinking and frustration, even in this illusory world! In fact, wishful thinking actually keeps what you would like in your life from being in your life. How then do you transform merely wanting something into actual creative manifestation in the world and in your life? That is exactly what we'll address in this class. Since your true creative power lives within you as the spirit that you are, you first need to access that inner spirit creativity to manifest anything. You can only access the timelessness of Spirit in the present moment. So, in this class, you'll also learn to be in the present, so you can create the future you'd like to live. Finally, what is it you'd like to manifest in your life? You'll explore that and learn to create more of what you discover and how to make those wishes come true.

TSW22-1 TC5Z-Bonus Zoom Post-TeleClass Q&A, Talk-Story & Tea

We'll invite everyone who takes part in at least one teleclass during this weekend to join us for this bonus Zoom Q&A, Talk-Story and Social after the last class on Sunday. It's an important time right after learning on this profound inner level to get together with others who also went through the classes and integrate what you learned and the energy you gained back in a more social space. Not only can you ask questions that you might have from the classes, but also you'll get to see some of your classmates and hear a little about their experiences and share some of yours with the group. Remember, video games and other illusions are entertaining as well as educational. This is a great time to have fun, chill, integrate, and continue to learn.
